Property Description

Full of classic character and crumbling walls this three floor townhouse sits in the heart of the historical town of Tavira. Access via calçada walkway to the ground floor of the property which is designated for commercial usage but can be changed to habitational use if needed. The house dates from the early 1900's and needs considerable renovation works. The total area over the three floors is 479m² and it has a very small terrace on the first floor and a very small courtyard. The house was built in a traditional style with the very typical quatro aguas style roof. This is certainly a big project for someone that wants a very special spacious house in the centre of the city a very short distance from the river Gilão. The property has connections to mains water, mains sewage and electricity. Internet, TV and telephone are all available upon request.
